## SOFTWARE TESTING | SOFTWARE QUALITY ASSURANCE

---

### PROFILE SUMMARY

- A problem-solving Quality Assurance & Test Engineer with hands-on experience in applying Quality Assurance tools, methodologies, tools, and processes to identify and eliminate errors in software and IT products to enhance their value and mass utility for end-users.

---

### COMPETENCIES & TECHNICAL STACK

SQL | Agile/Scrum | Restful APIs | Debugging | Agile Scrum | Postman | HTML | Jira | Jmeter | Product Test & Launch | Product Research | Product Deployment | Automated Tests | Microsoft Office

---

### WORK EXPERIENCE

#### Software Quality Assurance (In Training)

November 2021 – Present

Guru 99 Software Testing Project.

---

#### Major Achievements:

- Tested a product and identified deficiencies. Applied the postman tool to test APIs.
- Learned about Restful APIs and loaded tests using Jmeter.
- Tracked quality assurance metrics, like defect densities & open defect counts.
- Understood the application of Bugzilla in tackling bug defects and attained an appreciable understanding of the software development life-cycle and testing lifecycle.

#### Software Quality Analyst

June 2019 – Decemeber 2020

Elite Testers Demo Group by [Naomi Suru \(Software Testing Mentor\)](#).

---

#### Major Achievements:

- Executed manual tests across all product platforms and components ensuring that business requirements were fulfilled and eliminated anomalies.
- Identified and eliminated bottlenecks to improve team efficiency.
- Developed bug reports and provided objective feedback to software engineering teams.
- Carried out a detailed Quality assurance and report on a Transport Business Management Web Application

---

### PROFESSIONAL TRAINING AND DEVELOPMENT

#### Software Testing

[Guru99](#) (2021)

#### Master software Testing on Jira Agile Live Project Training

[Udemy](#) (2021)

---

### EDUCATION

#### Bachelor of Science (BSc) – Genetics and Biotechnology

[University of Calabar](#) (Calabar, Nigeria) (2018)
